| 9 | Please ask presenters to not publish powerpoint charts 2 to a page in PDF files. Slides 2 to a page are very small when displayed on tablets and hard to read. Since the chapter is not spending money to print paper handouts anymore there is no reason to put slides 2 to a page in the PDF download. | 9/26/2017 1:16 PM |

| 22 | Many of the visuals were difficult to read due to the contrast. The room was very cold. | 9/26/2017 9:16 AM |
| 23 | I tried to download the seminar materials at the TCVSCPA website, but found that some of the material was in format's other than PDF. PDF should be the standard format because it can be read by all. No special software required. Just have the speakers convert their documents to PDF before posting to the TCVSCPA website. | 9/26/2017 9:04 AM |
| 24 | THE CHAIRS WITH THREE AT A TABLE OR TOO CLOSE TO EACH OTHER. FOOD WAS GREAT | 9/26/2017 8:59 AM |

| 25 | The information for the A&A Day was not provided in advance like it has been in the past. We could not download the presentation materials ahead of time and the agenda was not provided until the day of the class. I was able to download the materials during the class, except for a couple of sessions which were not on the website at that time. It is very difficult to see some of the slides on the screen so it is very helpful to have the materials in front of me. I would hope that session materials will be available in a more timely manner in the future. I am not fond of the new TCVSCPA website- it is not as user friendly as the old one. Having to log in to view course materials and register for classes is cumbersome. I used to be in charge of registering each person in my firm for the classes they wanted to attend. Now each person has to sign in and register themselves, which is not as efficient. Also, we used to be able to view the class agenda weeks in advance to determine if the class was something we wanted to attend. The agenda for the A&A class was not posted in advance, but I hope that the TCVSCPA will consider posting the agendas for future classes in advance. | 9/26/2017 8:59 AM |

| 26 | I thought the valuation guy's presentation was interesting but not extremely relevant and i was a little embarrassed for Cherry Bekaert because it did not seem that their presenter had prepared for the presentation or had a great knowledge of the subject and the COSO subject is a tough one in general. Overall I thought it was a good conference and thank you for your volunteerism and putting it on for us | 9/26/2017 8:50 AM |

| 32 | I prefer the survey be provided at the seminar - it's difficult to remember the details. | 9/26/2017 8:23 AM |
| 33 | Materials for all speakers were not available-sitting in the very back I could not see the slides and better to have evaluations the day of the CPE. | 9/26/2017 8:22 AM |
| 34 | Feedback for CPE conference 1) Don't read slides. I can do that myself. Expound or summarize the info on the slides. The valuation and fraud speakers did a nice job. 2) Dress professionally - the fraud speaker was not 3) Use microphones in the audience if a speaker is going to actively engage the audience and answer questions. 4) Couple of sessions were not prepared well. We waited for Lease Accounting session to set up and the Ethics session assumed we would have her case study available. These need to be ready to go and even rehearsed so there are no glitches. Need to have backups in case. Have presentations on memory sticks or whatever. 5) Can we have speakers that are experienced. Some of these speakers did not have good presentation techniques. The lease accounting folks spoke to us a little like children. | 9/26/2017 8:20 AM |
